### Our Made in the USA Program

The managers of MOA Team Supply and the shareholders of Mount Olympus Awards believe that the United States is the greatest economic engine the world has ever known and are grateful that we were given the opportunity to build a business here. As our way of supporting local communities, we have made the extraordinary decision that we will only sell custom chenille products that are manufactured by American workers in American factories and that are owned by American entrepreneurs. That means that every varsity letter, every chenille emblem, and every chenille embroidered patch we sell is made right here at home. That's how we want to do business. That's how we want to live our lives.

| 2 Bar | 6.48   |
| 3 Bar | 9.72   |
| 4 Bar | 12.96  |

Chevrons and stripes can be used for a variety of purposes to recognize achievement on letterman jackets or varsity sweaters. An athlete who lettered varsity for four years, for example, could have a varsity letter and four chevrons or sleeve stripes sewn onto his or her award jacket.

Star patches are used to designate a team captain, co-captain, or leader, such as the captain of the cheerleading squad, the football team, or the debate team. Minimum orders of 12 apply for each type of chenille product.

## An Important Note on Color Matching

Above, you will find the yarn and felt choices we offer on all of our custom chenille products, varsity letters, and other custom sporting goods apparel. Although we have made a tremendous effort to ensure accuracy, due to many contributing factors, we cannot guarantee that the colors displayed in this catalog will exactly match the color of the product.

## Our Made in the USA Program

When we started our company, we made a conscience decision to support American made products manufactured or sold by American based companies and owned by entrepreneurs. This wasn't always easy and it's not always possible. This program, however, has wildly exceeded our expectations. To date, every one of the varsity jacket awards such as chenille letters, embroidered chenille patches, chenille mascots and emblems, and chenille name patches have been made by factories located in the USA.

Up until the recent closing of DeLong Sportswear, we were able to say the same for our letterman jackets, as well. Today, a majority of our suppliers are still American based companies but the market is rapidly consolidating and we are seeking additional sources of domestically manufactured garments. For customers that specifically want imported jackets, we can help accommodate you because we believe that at the end of the day, our job is to serve you and your needs.

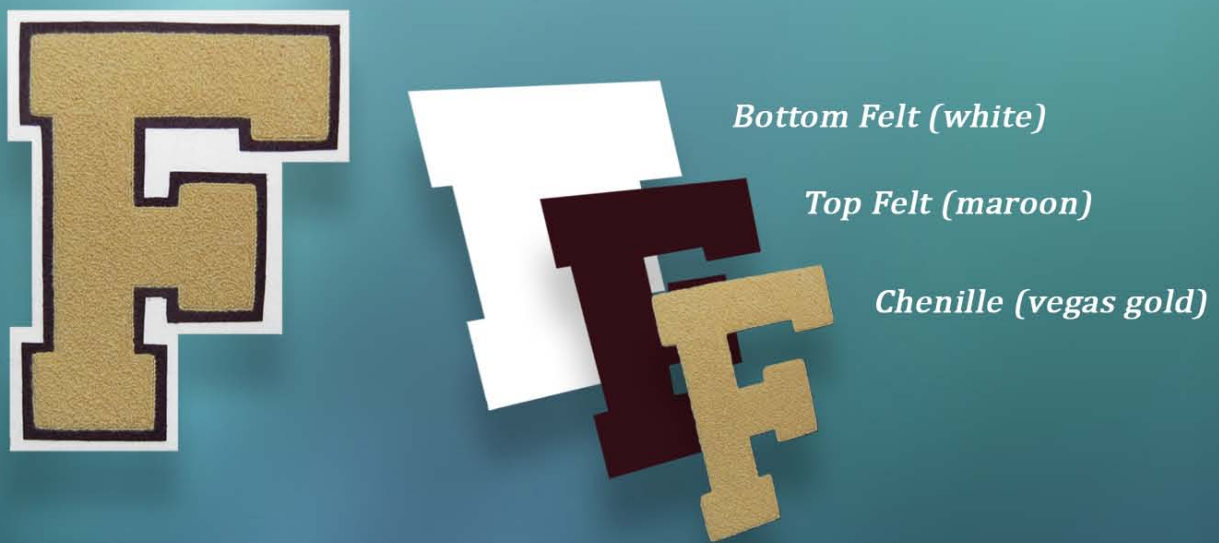

Why do we do this when it would be easier to source our products from overseas like most of our competition? We believe that we live in the greatest market-based economy in the world and it has rewarded us for pursuing our dream and turning a small start-up into one of the nation's most successful niche sporting goods companies. As a result, we want to show our appreciation and support other American firms. That is how we want to do business and live our lives. Given our economies of scale, we are often able to achieve better prices for you, our customer, despite having the products made domestically. Call it a perk of being one of the biggest (and we certainly believe, the best) letterman jacket award companies out there.
